

CE RoHS   

Description

The Tumbler outdoor wall lamp provides character and conveys the qualities of an elegant interior lamp to the outside world. It features a domestic shade with a well-proportioned cone-shaped section with rounded edges, which shines during both night and day. As an outdoor wall lamp, its role is to give structure to a façade and to direct visual attention towards areas of interest, entrances, traffic areas, or vertical surfaces. The Tumbler outdoor wall lamp plays a key role in the significance of private outdoor spaces, with efficient and comfortable lighting technology.

Materials

Primed and painted EN-AC-47100 injected aluminium luminaire. ABS injection moulded inner reflector. Tempered optical glass diffuser. Primed and painted EN-AC-46100 injected aluminium bracket. AISI 304 stainless steel screws.

Installation

The system is compatible with an electrical installation that is integrated in the wall or surface-mounted. Installation and assembly instructions as well as screws are included. Anchor bolts are not included. Mounting to an even and uninterrupted surface is advised.

Maintenance

Medium corrosivity category (C3) protection.
Includes pressure compensation valve.
No maintenance required. Clean with a soft cloth; do not use ammonia products, solvents or abrasives.

Delivery

The lamp is delivered packaged, together with installation and assembly instructions.

Regulations

UNE-EN 60529, UNE-EN 60598, UNE-EN 55015, UNE-EN 61000, UNE-EN 50102, UNE-EN 62031
(tests conducted in an ENAC certified laboratory, CE).
IP66 (indicates the degree of protection of the luminaires against intrusion of solids and liquids).
IK08 (protected against external mechanical impact).
Electrical Class I (CE).
