

Duo

André Ricard. 1973
Table Lamps

The Duo lamp was conceived by André Ricard for “executive desks”, not only that good focal light was required when going through extensive paperwork, but also the fact that, in the face of visitors, the view of those who sat in the confidants’ chairs should not be obstructed by a large or ostentatious lampshade. Duo fulfils both purposes seamlessly. It illuminates with proximity, and does not interrupt the visual horizon.

The luminous flux is adjustable by the independent rotation of its glass shades, which can be opaque to focus the light on the work surface, or translucent to provide a more general illumination too.

General description:

Black metallic structure.
Glass shade with two finishing options: opaque black or translucent white.
Opal white interior shade.
Electric cable length: 2,25 m / 88.6”

Approximate weight (unpacked):

4 kg / 8.8 lb

Technical information:

Includes dimmable light source (CE market):
2 x LED bulb: 6,5 W / 500 lm / 2700K / A++ (subject to updates in LED technology).
E12 / Max. hgt. 115 mm / 4.5” / Max. power 40 W

Compatible with bulbs of the Energy efficiency class (E.E.C): E
Suitable only for indoor use.
Always use the light source recommended or equivalent.

Input voltage: 100, 120, 230 Vac.
(50 Hz / 60 Hz). According to destination
